Special to the Indianapolis Journal. RENSSELAER, Ind., Oct. 1 .-- Owing to their venturesome spirit, disaster already has overtaken the drove of 417 Angora goat kids, lately placed on one of his farms near here by Alfred McCoy, father of T. J. McCoy, one of the leading politicians of the Ninth district.

The goats were bought at Kansas City, and being from Missouri, they wanted to be shown things, and a number got out of their pasture and on the tracks of the Monon Railroad. A train this morning killed thirty-six in a bunch.

MYSTERY AT BRAZIL.

Seven Strangers Conducted an Incineration in the Woods.

Special to the Indianapolis Journal. BRAZIL, Ind., Oct. 1.-Considerable excitement was created last night among the farmers near the big woods of Fred Kunpf. two miles south of here, by the mysterious actions of seven strangers, four women and three men, who appeared late at night in a vehicle, from which they took an object thoroughly wrapped up in a sheet. The men carried the bundle and the women carried cans filled with kerosene and went into the thickest portion of the woods, far from a highway, and started a big fire. After kneeling as though in prayer, then singing several hymns, the men saturated the bundle with the fluid from the cans and threw it on the fire. A blaze flashed up, which burned fiercely for about an hour, as occasionally a fresh supply of oil would be administered to the object on the fire. Finally, when the incineration was over and the strangers had departed Prof. Fishback and several other persons living in the neighborhood went to the scene and discovered fragments of bones, but as yet it has not been determined whether the bones are those of a human being or an animal. A thorough investigation will be made.

CONVICTED OF PERJURY.

Old Man Who Assisted in Procuring of a Marriage License.

Special to the Indianapolis Journal. JEFFERSONVILLE, Ind., Oct. 1 .- Seventy years old and with not a person in the courtroom to call his friend, Fenny R. Stumpff was to-day convicted of perjury in the Circuit Court. The alleged perjury was committed on May 14, 1903, when Stumpff made an affidavit that Annie Estes, of Lockport, Ky., was eighteen years of age and that she was also a resident of this county so that a marriage license could be secured for her to marry Dr. F. V. Yancey, also of Lockport. The testimony showed that Stumpff was picked up by Yancey in Louisville and on receiving a promise of a few drinks and a little money came to this city and made the affidavit. When he Father McEvoy was in the largest parish reached here he was taken in charge by James Keigwin, jr., who went with him to udgment for the Commonwealth against | the courthouse and assisted in securing the document. Keigwin is also under indictment

There is only one chance of the old man not going to prison and that is due to a wrong allegation in the indictment, and his attorney may ask for a new trial on these grounds. The indictment says that the license was issued by County Clerk Frank W. Carr, but the testimony produced the fact that Mr. Carr's deputy, Mrs. S. Carr, was the one who sold the document. Stumpff's home is in Kentucky.

how an abscess in the Fallopian Tubes of Mrs. Hollinger was removed without a surgical operation.

"I had an abscess in my side in the fallopian tube (the fallopian tube is a connection of the ovaries). I suffered untold misery and was so weak I could scarcely get around. The sharp burning pains low down in my side were terrible. My physician said there was no help for me unless I would go to the hospital and be operated on. I thought before that I would try Lydia E. Pinkham's Vegetable Compound which, fortunately, I did, and it has made me a stout, healthy woman. My advice to all women who suffer with any kind of female trouble is to commence taking Lydia E. Pinkham's Vegetable Compound at once." - MRS. IRA S. HOLLINGER. Stilvideo, Ohio .- \$5000 forfatt if original of

STATE DEMOCRATS

THEY NOMINATE A TICKET AND

ADOPT A PLATFORM. Col. W. A. Gaston for Governor and

Richard Olney II for Second Place -Cheers for General Miles. BOSTON, Oct. 1.-The Democratic State convention to-day nominated the following ticket: For governor, Colonel William A.

Gaston, of Boston; lieutenant governor, Richard Olney II, of Lienster; secretary of state, Ezekiel M. Ezekiel, of Springfield; attorney general, John J. Flagherty, of Gloucester; treasurer, Thomas C. Thatcher, of Yarmouth; auditor, F. X. Tetrault, of South Bridge.

Charles W. Bartless, of Boston, was made permanent chairman. In his speech he referred to General Nelson A. Miles as the "foremost American soldier living to-day, ican board of foreign missions; the board of dear to the hearts of our people, idolized by his old comrades." This was received with applause and cheers which compelled the speaker to pause and when he resumed the audience remained quiet only long enough to hear the words, "has been disciplined, snubbed, belittled and insulted by a crowd of fustian soldiers and sycophants suriding the technical head of the arm who was a chance participant in one small fight"-when it burst into another tremendous tumult of handelapping and shouts.

The platform reaffirmed the principles of Democracy, declaring that the "Democratic party shall fight the trust oligarchy now as it fought the political oligarchy with Jefferson." It denounces the "trusts" as 'monopolies made by law-entrenched behind a prohibitive tariff, buttressed by subsidies and special rates-plunder of our people with the one hand, while with the other they reach for conquest, and sell their product cheap abroad that they may sell

it dear at home." It continues: "We despise that hypocracy which outdoes Populism in placing the treasury money at the service of favored banks and breaks laws to favor Wall street speculators. We favor immediate regulation of trusts under the interstate trust and taxation powers of Congress, and admission, free of duty, of articles controlled by the trusts on raw material of manufacture and the necessaries of life.

"We condemn the policy of conquest and subjugation; we demand that Cuba be treated as we promised; we demand that the Philippines be treated like Cuba. 'Reciprocity with Canada, long the hor of Massachusetts, must soon be achieved r abandoned forever.

Drowning Accidents.

New York Herald. The number of accidents by drowning, large as it has been of late, is in keep with the opportunities of the season. The statistical quota must be maintained with fatal and unerring precision. While a very large proportion of deaths from immersion are preventable, it is almost useless to warn the careless and unthinking person of his danger. The playful idiot who rocks the loaded boat is impossible of elimination, save in the exceptional instances when he goes down with the rest, but it becomes the prudent amateur sailor to be always on careful guard against the slightest mishap to his craft. The trouble is, however, that the individuals "who know it all" and are willing to take other lives in their hands are too numerous to mention. It is when t is too late that the victims realize the real extent to which misplaced confidence may eopardize their lives. Still this must always be the case so long as rowing and sailing are the prevalent summer amuse-

ments and fools are in plenty to take com-
